Education

University of South Carolina

Columbia, SC

Bachelor of Science in Computer Science: GPA 3.0

Expected Graduation Date: May 2027

Nation Ford High School

Fort Mill, SC

High School Diploma: GPA: 3.1

Graduation Date: May 2023

Relevant Coursework / Course Projects

- Developed and monitored a repository on Github.com using things such as **HTML**, **Git**, and **Linux**.
- Developed a functioning software using **Java** that would allow the user to input various workouts that they do throughout a week. Then the program would show the user a balanced workout plan that would incorporate each of the workouts.

Experience

- In this upcoming summer for 2025 I am working on **building and redesigning websites for some of my local businesses**. In doing this I will be using my skills in **HTML** and **Linux Systems** to further enhance my proficiency in such.
- Designed a high-performance desktop computer tailored for gaming and various types of graphical design.

Skills & Interest

- **Programming Languages:** Python, Java, HTML, Linux Systems
- Proficient in **Object – Oriented Programming**
- Proficient in **Git / GitHub** managing repositories
- Proficient in **debugging** programs
- Provided guidance in helping classmates in using **Linux Systems**
